

INVITATION TO STAKEHOLDER WORKSHOP ARRANGED BY THE NORDIC TSOs

Update to the Nordic Solutions Report

The Nordic TSOs are happy to invite you to a stakeholder workshop presenting an update of the work performed as a result of their common report: "The way forward - Solutions for a changing Nordic power system".

The seminar will be held: **26th April 2019 from 9:00 - 13:00 at Energinet, Pederstrupvej 76, 2750 Ballerup, Denmark** (The meeting will also be live streamed. Streaming information will be provided closer to the workshop date).

Previously, the four Nordic TSOs: Svenska kraftnät, Statnett, Fingrid and Energinet identified and analyzed the main challenges and solutions for the Nordic power system. Since then the Nordic TSOs have been working on solutions to address these challenges.

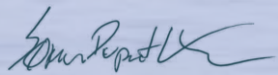

The workshop information and the reports from the previous effort can be found here:

[Workshop webpage](#)

In addition to giving you an opportunity to provide feedback on the progress and the challenges you see in the Nordic power grid, this event will be a unique occasion for networking in the Nordic energy community.

Please mark your calendar and sign up right away here: [Workshop Registration](#)

With kind regards, on behalf of the CEOs of the Nordic transmissions system operators,

Søren Dupont Kristensen
CEO, Electricity System Operator
Energinet
